The following is an examiner's statement of reasons for allowance: Regarding claim 1, the closest prior art of record, Mitteregger (Fig. 1) does not disclose the following limitations: when the low gain fully differential amplifier biases the high gain fully differential amplifier, the positive and negative outputs of the circuit are stable during a common mode operation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
